Re: *Notice of Ex Parte Presentation:* In the Matter of Petitions of US LEC Corp. and T-Mobil USA, Inc., *et al*, for Declaratory Ruling Regarding Inter-carrier Compensation for Wireless Traffic, CC Docket No. 01-92

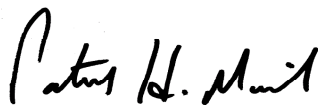

Dear Ms. Dortch;

On Tuesday, June 17, 2003 Henry Hultquist representing MCI and Robert Quinn Jr. and I, representing AT&T, met with Daniel Gonzalez, Senior Legal Advisor to Commissioner Kevin J. Martin to discuss the above mentioned petitions. AT&T and MCI urged the FCC to deny the US LEC petition as it seeks the ability to impose additional access charges on interexchange carriers, when in fact, the CLEC provides no access service or functionality. Where a CLEC simply inserts itself between the CMRS provider and the ILEC tandem, it provides no genuine access function and should not be permitted to charge the interexchange carrier access. In the situation where a CLEC actually replaces the ILEC in providing the tandem switching or other genuine access functions, the CLEC should only be permitted to charge the ILEC rate for the access functions that are actually being performed by the CLEC, not the full CLEC benchmark rate as requested by US LEC.

The positions expressed by the companies were consistent with those expressed in their previous filings in the above referenced proceeding.

Consistent with the Commission rules, I am filing one electronic copy of this notice and request that you place it in the record of the proceedings.

Sincerely,

A handwritten signature in black ink, appearing to read "Peter H. Smith". The signature is written in a cursive style with a large initial "P".

CC: Daniel Gonzalez
